Art Unit: 1775

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

2. Claims 38-57 are rejected under 35 U.S.C. 102(e) as being anticipated by Kurakata et al (5,985,469).
3. Claims 38-44 are rejected under 35 U.S.C. 102(b) as being anticipated by Suwa (JP 51059732) or Glory KK (JP 56008004) or Daido Tokushuko KK (JP 62199765).

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 45-57 are rejected under 35 U.S.C. 103(a) as being unpatentable over Suwa (JP 51059732) or Glory KK (JP 56008004) or Daido Tokushuko KK (JP 62199765) in view of Daido Hoxan Inc (JP 09071854 or 5792282 or 5593510 or 5556483).
6. The rejections are maintained for reasons of record in Office Action mailed 11-19-03. Applicant's arguments filed 5-21-04 have been fully considered but they are not persuasive. The applicant argues that the hardened layer does not include the chromium carbide layer which is not a limitation in these rejected claims, thus the rejections stand.
7. Applicant's arguments filed 5-21-04, with respect to claims 1,4,6-16,18,19,21,22,24-37,60-78 have been fully considered and are persuasive. The rejections of these claims have been withdrawn. The examiner is convinced that that art fails to disclose the absence of chromium carbide in the hardened layer and thus these claims are allowable over the prior art of record.
8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
